RESIDENTIAL BUILDING	163 m²	€2,000	AVAILABLE

BEDROOMS	DAILY ROOMS	THE FLOOR
3	1	2

UNFURNI	INDEPEN	YES	2	1	0	1	YES	NO	2	NO

Excellent new complex on Senjak in quiet street with plenty of green areas. Building has great location near green market and very close to the frequent square where are numerous coffee shops and restaurants. Few minutes driving is highway, and several international schools are in the neighbourhood so this part of the town is ideal for families with children. Complex is situated on the beautiful piece of land and its conception seems to be like two three-floor semi detached units. On the ground floor are garages with two parking spots per apartment. Building exterior is simple and elegant, with beautifully manintained facade and garage entrance. Apartment is cosy and spacious, with living room organized as open space which also contains dining area. Kitchen is separated and completely equipped. Three bedrooms (one is master bedroom), two bathrooms and toilet are also part of the apartment. Ceiling height is not standard and make the living room simply wonderful. Interior is bright and made of high quality materials. Apartment is suitable for families which desire life in comfort and a prestigious environment.
